About the IIRC

The International Integrated Reporting Council (IIRC) is a global coalition of regulators, investors, companies, standard setters, the accounting profession and NGOs. Together, this coalition shares the view that communication about value creation should be the next step in the evolution of corporate reporting.

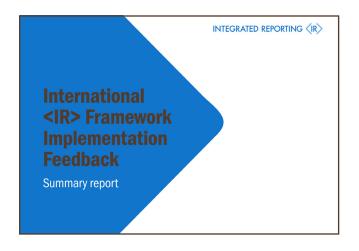

The International <IR> Framework was released in December 2013 after an extensive due process to meet this need and provide a foundation for the future.

Introduction

In March 2017, the International Integrated Reporting Council (IIRC) invited market feedback on the enablers and barriers to integrated reporting adoption. Over the course of two months, we benefited from the collective wisdom of some 400 experts from 19 countries around the world. We listened to and learned from individuals and organizations on the front line of corporate reporting to identify issues and related actions, as summarized in our publication International <IR> Framework Implementation Feedback Summary Report.

The Summary Report includes 48 action items, 43 of which are included in the IIRC's Technical Programme. These actions, whether in the form of authoritative guidance, outsourced or collaborative research or ongoing discussion with others, drive an improved understanding of integrated reporting and the high-quality implementation of its concepts and principles. True to our mission, we're committed to transparently sharing our progress against plan. As a supplement to this Progress Report, we invite readers to visit our website for minutes of all <IR> Framework Panel meetings.

Overall, we are on track relative to the Technical Programme announced in October 2017. The IIRC gratefully acknowledges the insights and expertise offered by the members and technical advisors of the <IR> Framework Panel. In particular, we thank the following individuals for volunteering their time and perspectives:

Jean-Luc Barlet
Sarah Bostwick Stromoski
Erik Breen (Chair)
Stathis Gould
Nancy Kamp-Roelands
Rodrigo Morais
Yoichi Mori
Lothar Rieth
Thomas Roundell Greene
Hugh Shields
Roger Simnett
Jason A. Voss
Zubair Wadee

We thank Black Sun Plc, our partner in the <IR> Examples Database, for its ongoing support since 2012. The team's efforts in the 2018 revitalization of this important online tool were invaluable. We look forward to exploring exciting new features and functionality in the year ahead.

I'd like to express my personal appreciation to the IIRC team and, in particular, my colleagues Laura Leka, Liz Prescott and Yvette Lange for their outstanding work and tireless efforts throughout the year. Together, we've accomplished great things.

Finally, our market-led work would be lost without the comments, questions and insights from those around us. This includes our Board and Council members, as well as our <IR> Network participants and IR> Training Partners. It also includes the businesses, investors and other stakeholders with whom we regularly interact during the normal course of business. Your interest and enthusiasm continue to inspire and drive the integrated reporting movement forward. And it is you to whom we remain accountable.

Drend.

Lisa French Chief Technical Officer, IIRC

Туре	Discussion with others D	Туре	e Guidance G
Progress	Performance measures have featured prominently in recent IIRC discussions, with focus generally on two imperatives, namely the need to: (1) better align existing approaches and (2) identify and fill gaps in current reporting practice and guidance. The topic was central to the October 2017, February 2018 and June 2018 meetings of the Corporate Reporting Dialogue, a consortium of prominent standard setters and framework developers that favours alignment where practical.	Progr	gress A proposal was reviewed at the <ir> Framework Panel's February 2018 meeting. The Panel supported guidance based on the Capitals Background Paper for <ir>. Staff also explored metrics-oriented initiatives focused on non-financial capitals, which showed good coverage of human, intellectual, social and relationship, and natural capital. It was decided that the Practice Note should point to such initiatives on an illustrative basis. During the April 2018 <ir> Framework Panel meeting, staff proposed that the Practice Note on The capitals supplant that on Materiality.</ir></ir></ir>
